About Empirix:	Empirix is the leading provider of service quality assurance solutions for new IP communications. Its widely acclaimed Hammer Test Engine™, with more than 30 patents, is the acknowledged global standard for validating the quality of IP networks, systems and applications. Since 1992, Empirix's Hammer-based service quality assurance solutions have helped Network Equipment Manufacturers, Service Providers and Enterprise Contact Centers successfully transition to new technologies including Unified Communications, IP Contact Centers, VoIP, NGN, and IMS-based networks. Our commitment to quality in everything we do sets the standard for the industry.
